“Zinc ages like a fine wine. It is steeped in history, yet La Bastille has transformed it into a versatile material that is for modern day design. Like sterling silver, it develops a patina and is not static. It oxidizes and tells a story. Zinc can be polished to look like new, and a new story is ready to be told.”

-Katiana Chapman, Owner

www.labastille.com

Our Story

La Bastille is a leading producer of custom bartops, range hoods and tables. We specialize in zinc, pewter, brass, bronze and copper- all “living” metals that develop a rich patina over time. We also offer ready to order, semi-custom metal range hoods and table tops.

Established in 2010 and located in historic Savannah, Georgia, we have spent years advancing our craft. We have pieces housed in some of the most elegant hotels, restaurants and homes in the United States, Canada and around the globe. Our cast metal products are distinctive and versatile, with the ability to create organic and unique shapes. We use only the highest quality alloys available and offer rich finish options, customized by patina and texture.

With boundless design options, our design team works directly with our clients to explore and finalize each detail of the project and provide comprehensive shop drawings. The La Bastille production team then brings the design to life with technical and artistic expertise. Your hand-crafted piece is then securely crated and shipped to its final destination.

Custom

Zinc countertops have always been the hallmark of La Bastille. They are sculptural, luxurious, and timeless. We have since expanded our material selection to include pewter, bronze, brass and copper. We fabricate our custom pieces with precision and a passion for our craft.

Our design team works closely with our clients to take initial concepts and develop them into fabrication ready pieces. Every design detail, including shape, edge detailing, and finish, is discussed and finalized. Each unique project is then constructed and hand finished by our experienced artisans. The result is a beautiful work of craftsmanship which is as unique as the setting it calls its final home.

Bastille Collection

Ready to Order

In 2018, we expanded our repertoire by launching The Bastille Collection: a made-to-order series of thoughtfully curated products, in stock sizes with customizable design elements. After an order is placed, each piece is constructed using the same quality manufacturing and finishing techniques for which we are known.

Our beautifully crafted artisan range hoods are ready to install and available to order online (ready to ship in 4-6 weeks). Our handmade line of accent tables can be featured in a variety of settings, and can be purchased in any quantity. If your space is in need of an even larger statement, La Bastille has designed a simple to install wall panel system to meet your needs. With plans to introduce more furniture lines, Bastille Collection offers exclusive pieces crafted in our own manufacturing facility. Each piece is easy to order and made to last for generations.
